Father Francis Nakagawa S.M

It is unnecessary to emphasize the demanding and enervating duties of a principal. Because Father Francis Nakagawa successfully stepped into the role of principal in his first year, he has earned the respect of the student body, faculty, and parents. Father's success undoubtedly resulted from his administrative ability, persistent yet patient efforts, and his indefatigable spirit.

Father believes that frequent contact with the students can be fruitful. Father's frequent and informative assemblies exemplify his great interest and regard for us.

Although Father is constantly pressed by his office duties, he has the same primary purpose of any educator---to teach. Father instructs Latin I to the Freshman, Ethics and Economics to the Juniors and Seniors, and teaches Senior Sociology. After teaching hours Father is also involved as the Student Council Advisor, Sodality Moderator for the 11th and 12th grades, and Mothers' Club Moderator.

The Forward Staff, indeed the entire school, would like to offer its heartiest congratulations on the fine work which you have accomplished during your initial term as principal and we wish the best of luck for the future.

**FATHER FRANCIS GERBER S. M.**

Father Gerber, the current principal of the grade school, hails from Cleveland, Ohio. Three years after his ordination in 1945, Father came to SJC where he remained for seven years as Chaplain. In 1956 Father returned to the U.S. and celebrated his Silver Jubilee. In 1958 Father returned to Saint Joseph.

Besides being in charge of the grade school, Father Gerber teaches religion and penmanship to the first grade and ethics to grades seven and eight.

Father's day does not end with the 2:55 bell, for he can be seen after school patiently supervising the young tykes in the playground.

**BROTHER ROBERT SCHAWALDER S. M.**

Brother Schawalder, who calls Pittsburgh, Pennsylvania his home town, came to us at SJC in 1959 after having previously taught in such diverse places as New York, Kentucky, and Puerto Rico.

The Vice-Principal is not limited to administrative duties for he is also the year book moderator and head of the science department. The students owe their appreciation to Brother for his persistent and successful efforts in providing excellent equipment and fine lab facilities.

Instruction wise, Brother teaches General Science to the Freshman, patiently explains the intricacies of Biology to the Sophmores, lectures the Juniors and Seniors in the new PSSC Physics, and instructs Senior Math.

David only joined us in the Junior year but his free and easy manner, inside the classroom and out, quickly won him many friends. His valor on the soccer field and his antics on his motorcycle and later his car, have become a legend. As for the future, his ambition is to become a commercial pilot, a field at which we are sure he is well-qualified.

**David Anderson**

*Love is the voice under all silences.*

## Graduation

On Sunday, June 20th, the Saint Joseph College Senior Class of 1965 will receive its diploma of graduation.

Graduation from high school is an unforgettable and joyous event in the life of each person, yet with this great happiness we hold with graduation, we all experience a feeling of apprehension and doubt of what the future will hold for us.

## Graduation

represents the end of one stage in our life and the beginning of another. As we receive our diplomas and leave the portals of school it is for each of us to face the challenge of life squarely and with the fresh spirit of youth. Graduation is not the termination of education but the beginning of a whole new scope of learning. Graduation is the opening of the door of life.

### Message to Undergraduates

As the school year draws to a close, graduation is drawing nearer and our school careers will soon be over. You, undergraduates, however, have at least one more year of school. Make your remaining high school years fruitful and memorable.

Now is the time to think of graduation for it is not as distant as you believe. We ask you to contemplate these questions. What will you achieve from your school and teachers? Will you have anything to show for 12 years of education? Your education should not end with graduation—you should be intellectually curious throughout your lives. You must become a part of the school life so that when you leave the portals of school you will leave with fond memories and lasting school pride.
